Education

- 2009-2011 **High School Certificate**
Ecole des Sciences de Musanze
- 2013-2017 **Bachelor's Degree in Civil Engineering**
University of Rwanda-College of Science and Technology
- 2022-2024 **Self-teaching software development**
For the past two years I dedicated my time to teach my self how to code and build good and scalable apps

Work Experience

- 2024-Present **Full-stack Developer at Self-Employed**
My story as full-stack developer started when I wanted to build My own projects. That is what I did after knowing how to do it, I started with my learning platform, the app I use to help my fellow engineers by teaching them how to use computer programs to do engineering designs. The app can be accessed here, prestigelearning.net

Now I am working on the second project which is a bible study Project, I am building it on web and mobile

Projects

- Prestige Learning: A learning platform that I build on which I share my skills with others, this app is already in production, You can check it out here, prestigelearning.net. Tech used: React, nextjs, tailwindcss, and Postgres
- Jobify: This is demo app that I build when testing my skills, it is a job listing and search app. You can check it out here, jobify.jdhagena.com. Tech used: React, MongoDB, Nodejs and styled components
- Snapgram: This is demo app that I build when testing my skills, it is an instagram-like app. You can check it out here, snapgram.jdhagena.com. Tech used: React, Nextjs, appwrite taiwindcss

Skills

Coding - Web

HTML/CSS
Javascript
React
NodeJs
NextJs

Databases

Mongodb
Postgresql
Prisma

Coding - Mobile

React native
